

Please keep K Love radio on the air. I believe that this station must stay on the air and not be knocked off by LPFM translators. KLove provides a balance to the glut of radio stations that have purely secular content and are not suitable for young childrens ears. KLove performs public service by reporting news objectively and providing a no-cost outlet for churches and non-profit organizations to advertise that would normally have to use funds intended for the people they help to pay for advertising at a different radio station. Please keep them on the air in their present format
